

BIOGRAPHICAL INFORMATION ON COMPANY

COMPANY Hooker Chemical

INDUSTRY Chemicals

SIC CODE 2812, 2819, 2813, 2869

OWNER \_\_\_\_\_

ADDRESS 605 Alexander

CITY, STATE Tacoma, WA

COUNTY Pierce

CONTACT, PHONE Lyle Feller (206) 383-2661, Waste Management  
Company is preparing response letter.

If company has moved, what is (are) the former address(es):

Known hazardous wastes produced from 1975 Region X study (type, quantity, time frame):

## HAZARDOUS WASTE INVENTORY

The following inventory is meant to serve as a guide in collecting information on past hazardous waste generation and management. It is meant to reflect the type of data that is of interest for each potentially hazardous waste.

Type of Waste - A general description of the waste (i.e., empty pesticide containers, spent solvents, etc.). If specific chemical compounds are known they should be included.

See Comments

Caustic Sludge

CaCl<sub>2</sub> Sludge

Chlorinated Organic Sludge

Chlorine

Ammonia

CaCl<sub>2</sub>  
HCl<sup>2</sup>

Form of Waste - A brief description of the physical form of the waste including size, if applicable (i.e., sludges, liquid sealed in 55 gallon drums, 100 pound blocks, etc.).

Source of Waste - The particular operation responsible for generating the waste (i.e., electroplating shop, vector control, etc.).

Quantity of Waste - Typical waste generation figures (i.e., 400 gallons/month, 5 tons/year, etc.).

Period of Waste Production - Time period that waste was produced (i.e., 1950-1963, 1945-present, etc.).

Disposal Method - How wastes were disposed of, including location of disposal site if applicable (i.e., recycled in shop, incinerated, taken to county landfill, etc.).

Recycling Practices - If applicable (i.e., sold to reprocessing plant, returned to vendor, etc.).

Additional Comments -

In a written response, Hooker indicated we should gather our information from the EPA. Hooker claims EPA was furnished the information and we should get it from them. Talked to Neil Thompson of EPA on 11/13/79 and he agreed with Hooker.

Information on Former Producers of Waste Who are No Longer Active - Any information similar to that given above, concerning wastes generated by a company no longer in existence or any company that was located in close proximity (i.e., Sam's electroplating operated from 1961-1970 and their waste sludges were 1) recycled, 2) sewerred, 3) reprocessed, etc.).

Information on Firms Producing Similar Wastes - Are the above methods also used by other firms for disposal of similar wastes? If not, what other alternatives are you aware of that have been used?
